

SPC455

FASTConnect Tool Kit with Cleaver & VFL

Specialized Products Company offers you the flexibility to purchase preconfigured kits or customize your kit to include the case, test gear, tools, connectors, cleaning solutions and so much more for a total solution. This flexibility allows you to create a solution that perfectly meets your needs.

The **SPC455** FASTConnect Tool Kit offers industry-standard AFL fiber installation tools to prepare 250µm or 900µm fibers applied to pre-polished FAST connectors.

The CT50 precision cleaver comes with Bluetooth, motorized blade rotation and built-in scrap collector. The VFI4-01-0900PR Visual Fiber Identifier, with 2.5mm and 1.25mm adapters, features a 650nm visible red laser source and high-power output (5 mW maximum). It is used to identify connection issues, sharp bends or breaks in fibers, trace single-mode or multimode fibers during activation and installation, as well as check continuity and splices.

Also Included:

FAST SC assembly tool, FAST LC assembly tool, 3 mm cable clamp, 2 mm cable clamp, 0.25/0.9 mm cable clamp, fiber stripper, marker pen, Kevlar scissors, fiber prep cleaning fluid, lint-free cloth wipes, strip length template, installation instructions and a carrying case.
