OPTIPOP R Refillable Cassette Cleaning Tools

The OPTIPOP R is a cassette style fiber optic connector cleaner system that can be refilled for reducing cleaning costs. It uses a densely woven micro-fiber cleaning fabric to remove harmful contaminates off of the ferrule end face. The OPTIPOP R cassette cleaning tool will accommodate all single fiber connections. US Conec has versions of the OPTIPOP R cassette cleaning tools that are designed specially for cleaning multi-fiber connector systems including the MTP® Brand Connectors, standard MPO and MTRJ connectors for both singlemode and multimode connectors. The customized OPTIPOP R cassette cleaning tool will accommodate the alignment guide pins on male MT ferrules. US Conec has a version of the OPTIPOP R cassette cleaning tool that is ideal for field use at FTTX work sites. This version accommodates the OptiTap™ connector housing making it ideal for technicians that need to clean OptiTap™ plug connectors on drop cables.

The anti-static cloth material produces a pristine fiber tip and minimizes contaminant attraction. The cleaning fabric is pre-washed and produces less than 70 pcs/CFM of particles > 1mm in size, making this system excellent for use in any production environment including clean rooms.

Features

- Replacement reels are easy to install and reduce the cost per cleaning
- 400+ Cleanings
- Eliminates electrostatic charge
- The washed, ultra clean micro-fiber cloth captures debris and other contamination
- The cloth is robust, it does not fray or leave any fibrous materials behind
- The most cost effective high-end cleaning solution available

Applications

- FTTX work sites installing OptiTap™ drop cables
- Data center installation and preventative maintenance
- Central office and head end new equipment installations and preventive maintenance
- Production facilities that terminate fiber optic cable assemblies
- Testing and measuring laboratories using optoelectronic equipment
- Any application that uses unmated fiber optic connectors

Part Number	Description
6227 (labeled) 6338 (unmarked)	OPTIPOP R Cassette Cleaning Tool – Single Slot. *For cleaning all single fiber and female MT ferrule connectors* NTT-AT: ATC-RE-01
6226 (labeled) 6339 (unmarked)	OPTIPOP R Cassette Cleaning Tool – MPO Male. *For cleaning male (with guide pins) MPO connectors* NTT-AT: ATC-RE-03
6230 (labeled) 6437 (unmarked)	OPTIPOP R Cassette Cleaning Tool – Two Slot. *For cleaning LC duplex connectors* NTT-AT: ATC-RE-02
8057 (unmarked)	OPTIPOP R Cassette Cleaning Tool – FTTX. *For cleaning OptiTap™ plug connectors on FTTX drop cables* NTT-AT: ATC-RE-03W
6228 (labeled) 6340 (unmarked)	OPTIPOP R Cassette Cleaning Tool – MTRJ Male. *For cleaning male (with guide pins) MTRJ connectors* NTT-AT: ATC-RE-04
6232	OPTIPOP Refill 6 Pack. *Replacement reels for all OPTIPOP R cassettes* NTT-AT: ATC-RS-01
