

The Jonard Tools JIC-190 Flush Cut Kevlar® Cutters are designed to cut Kevlar®, cabling insulation, tape, cable ties, and other materials flush to the surface. These cutters feature the following:

- Thin-nose jaws provide easy access into tight places and allow for flush cutting of Kevlar® to the fiber jacket
- Serrated edge holds Kevlar® in place for clean and precise cutting
- Non-serrated blade can be sharpened for continuous long life
- Spring-loaded TPR (thermoplastic rubber) handles return to the open position for enhanced ergonomics and reduced hand fatigue
