

Designed to test HDMI and Mini HDMI cables with ease, this HDMI Cable Tester is the perfect tool for evaluating HDMI cables that may have shorts, open circuits, or have wire pairs in the wrong order. This HDMI tester features the following:

- Perfect for use on 1.2V / 1.3V / 1.4V / 2.0V HDMI or Mini HDMI cables
- Scan mode allows you to see each individual connection being tested one by one
- Full Display mode shows all of the tested connections at once
- Receiver can be detached from the main unit, allowing you to test long or installed HDMI cables
- Auto shutdown function after 10 minutes helps preserve battery life
- Powered by (1) 9V battery (included)
