

Designed for telecom and electrical applications, these heavy duty scissors are the perfect tool for cutting cables up to 1/4" diameter and for other objects as well. These scissors feature the following:

- One blade is serrated for a tight and secure grip while cutting
- High carbon stainless steel blades for maximum strength and durability
- Two stripping notches included for stripping 18-20 AWG and 22-24 AWG wires
- Dual component nylon and Santoprene™ grip for greater comfort and ergonomics
- Adjustable screw underneath hinge cap to configure blades to your needs
