

Made with neodymium magnets, these magnetic cable holders are ideal for installing cables on high ceilings or other places quickly and easily. These magnetic holders feature the following:

- Ultra-strong magnets made from neodymium (a rare earth magnet) hold up to 15 lb (6.8 kg) of cables/4" x 4"
- Compatible with our RDT-18K Telescoping Pole and MF-45 Magtime Cable Pole Bracket to hang wires in high places
- Permanently holds wires in place but can also be removed in seconds
- Specially designed slots are perfect for using zip ties and hook and loop strips to hold cables in place
