

## PTX-1BF - Electric Wrap/Unwrap Tool W/Backforce, 115V - Data Sheet

Electric Wrap/Unwrap Tool w/Backforce - 115V. The patented PTX Series of Wire Wrapping Tools bring a new level of wire wrapping proficiency to installers, telecom technicians and other users. This wire wrapping tool has a maximum usage rating of 2,500 cycles/day, will wire wrap 18 to 32 AWG wire .

The PTX also features a dual-finger short-throw trigger, a long handle to mitigate pressure on the palm to prevent repetitive stresses and a comfort design based on the recommendations of our certified ergonomist. The housing is rugged yet light in weight and includes additional features including a wrap unwrap switch, a high-powered motor for the heaviest gauges of wire and a permanently attached collet nut.

Backforce is a spring-loaded internal device that is utilized to help the operator eliminate excess pressure against connections on critical applications. The succeeding turns of wire being wrapped on the terminal forces the wire wrapping bit rearward against a predetermined spring pressure. This assures that every connection on the panel has been wrapped at the same pressure. The backforce wire wrapping feature is recommended for new users/ trainees and is best when used on wire gauges 26 to 32 AWG. Weight 2.0 lb., 115 Volts, 3700 RPM.

### Specifications

Features	Backforce
RPM	3700
Voltage	115V
Weight	2.002 lbs
UPC No	811490014466
