

NEVERDull™ Blades

High-performance blades stay sharp and last twice as long

Increase productivity and reduce costs by upgrading to the NEVERDull™ Blades. These high-performance blades stay sharper longer than traditional ones. Pop one in the PRO-Strike™ punchdown tool and no termination job will be too tough.

Application/Technical Data

- Advanced MIMS construction (Metal Injection Molding) ensures higher performance and longevity
- Works with all industry standard 110 and 66 style cross connect blocks & keystone jacks
- Compatible with all industry standard bayonet mount (twist & lock) punchdown tools
- Conveniently stores in your punchdown tool handle
