

# Sticklers™ MPO CleanClicker™ 600

## Fiber Optic Connector

### Product Features:

- 600+ cleanings for lowest cost per clean
- Cleans dust particulate & oil contamination
- Fast click-to-clean MPO & MTP™ connectors in adapters, cassettes, and trunk assemblies
- Cleans both male (with guide pins) MT ferrules and female (no guide pins) MT ferrules
- Easy-to-use on data center & high density optical networks
- Color coded label & packaging minimize error & speed cleaning

The Sticklers MPO CLEANCLICKER 600 fiber optic connector cleaner is the latest innovation in fiber cleaning from the experts at Sticklers. This rugged, precision cleaner uses a smooth click-to-clean push-action, with light contact force to reduce the risk of end-face damage. With 600+ cleans, it is perfect for cleaning MPO connectors in high density network applications such as data centers, FTTH, and central offices. Sticklers CLEANCLICKER cleaners are color-coded to help users quickly ensure they have the right cleaner for the connector at hand.

Engineered for MPO and MTP multifiber connectors, it cleans flat polished multimode and angled singlemode connectors. There's no doubt: Sticklers CLEANCLICKER fiber optic connector cleaners deliver the consistent cleaning performance at the lowest cost-per-clean.
