

Non-Conductive Glow Rods

Extreme flexibility and superior strength

With our proprietary luminescent resin, Jameson is the original manufacturer of fiberglass glow rods.

We are proud to present the newly expanded and most comprehensive line of glow rods featuring this technology, along with accessories and all-in-one kits, in the industry.

These non-conductive sectional rods are perfect for drop ceilings, attics, floors, walls and crawl spaces. Their high strength and flexibility handle turns easily without breaking.

Designed for maximum versatility, threaded sections make it possible to customize rod length to any job and a variety of accessories make it easier to handle any wiring situation.

Available in three diameters, all rods feature the same size ferrules so they can be used together in any combination.

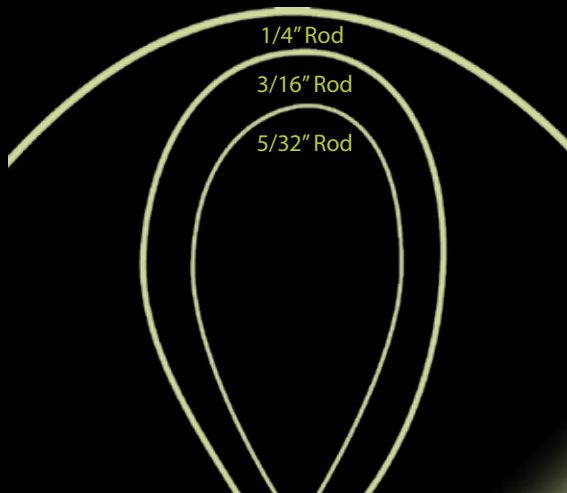

Glow Rod

What Size Do You Need?

Flexibility increases as rod diameter decreases:

- 1/4" for long spans requiring greater rigidity
- 3/16" for short spans or in limited space
- 5/32" for making tight turns

With commonality of ferrule threads, different diameter rods can be used together in any combination for ultimate on-the-job customization.

1/4"
Diameter

The 1/4" rod is designed for long spans where rigidity is needed to cover the distance.

Minimum Bend Radius: 6"

Tensile/Pull Strength: 750-lbs

1/4" Glow Rod Kits	Total Rod Length	Packaged Kit Length	Part Number
Three 6' X 1/4" Rods, Two 3' X 1/4" Rods One Bullet Nose with Eyelet, One Hook	24'	6'	7-36-23T
Six 3' X 1/4" Rods One Bullet Nose with Eyelet, One Hook	18'	3'	7-63T
Three 4' X 1/4" Rods One Bullet Nose with Eyelet, One Hook	12'	4'	7-34T
One 3' X 1/4" Replacement Rod with Male and Female Ferrules	3'	*	7-3
One 6' X 1/4" Replacement Rod with Male and Female Ferrules	6'	*	7-6

* Single rods are shipped with hanging tag, not in clear plastic kit tube

7-36-23T

7-63T

3/16"
Diameter

The more flexible 3/16" rod is preferred for short runs or where space is more limited.

Minimum Bend Radius: 4"

Tensile/Pull Strength: 500-lbs

3/16" Glow Rod Kits	Total Rod Length	Packaged Kit Length	Part Number
Four 5' X 3/16" Rods One Bullet Nose with Eyelet, One Hook	20'	5'	7S-45T
Seven 18" X 3/16" Rods One Bullet Nose with Eyelet, One Hook	10.5'	18"	7S-718T
One 5' X 3/16" Replacement Rod with Male and Female Ferrules	5'	*	7S-5

* Single rods are shipped with hanging tag, not in clear plastic kit tube

7S-45T

7S-718T

Convenient 18" kit length for toolboxes.

5/32"
Diameter

The smallest diameter rod in Jameson's line offers extreme flexibility while maintaining high strength.

Ideal for security and alarm, home theater, CATV and satellite installation.

Minimum Bend Radius: 3.5"

Tensile/Pull Strength: 500-lbs

5/32" Glow Rod Kits	Total Rod Length	Packaged Kit Length	Part Number
Three 6' X 5/32" Rods One Bullet Nose with Eyelet, One Hook	18'	6'	7SS-36T
One 6' X 5/32" Rod with Permanently Mounted Bullet Nose with Eyelet On Each End of Rod	6'	*	7SS-6

* Single rods are shipped with hanging tag, not in clear plastic kit tube

7SS-6

7SS-36T

Permanently mounted bullet nose on each end.
