

Torque Screwdriver

1050TSD is a 1/4" hex adapter style insulated torque screwdriver kit from Cementex. It has a torque range of 10 to 50 In. Lbs., works in the clockwise only direction. At only 8" long its' still small enough for limited space job tasks and the various tipped power bits keep the tips locked in place.

- Dual sensing "click and feel" indication of micrometer torque settings.
- Accuracy is +/- 6% of setting right hand.
- Precise torque settings.
- Large graduations scale: inch-pounds.
- Quick and easy positive locking ring.
- Hex adapter allows for various tools.
- Slim, lightweight design reduces fatigue and facilitates use in confined work areas.
- Do not use to loosen screws.
- Store at lowest torque setting.
- Works great for tightening nuts and screws. (clockwise only)
- All Cementex insulated torque tools come calibrated and certified. (ASME B107.300)

Description	Part Number	Weight (Lbs.)
10-50 In-Lbs Torque Screwdriver	1050TSD	2
