

Roll Blankets

Made from high-strength, fabric-reinforced Type II rubber, Cementex Roll Blankets allow custom-cut fit for each application at the job site. Designed, manufactured, and tested in the USA in strict accordance to current ASTM F2320 specifications. Roll Blanket Shielding is highly puncture- and tear-resistant, as well as flame-(self-extinguishing), oil-, and ozone-resistant.

Roll Blankets - Matting

Switchboard Matting

Switchboard matting is rubber matting designed to insulate workers in high voltage areas. It is used as a floor covering to prevent shock around high voltage electrical apparatuses, fuse boxes, switchgear, control panels, and heavy machinery. This matting meets and exceeds the parameters of ASTM D178. This matting is Type I Natural rubber which is non-oil resistant, non-ozone resistant, and non-flame retardant.

Switchboard Matting is available in a number of custom-cut size variations. Full rolls of Class 1, 2, and 3 measure: 36" Wide X 75' Long. Full rolls of Class 4 measure: 36" Wide x 60' Long. Thicknesses vary based on class (see descriptions below).
