Electrician's Drill/Driver Kit

***One Kit
Gives
The Best
Fit!***

Designed with the Professional Electrician in mind

Greenlee is proud to announce the new 68-piece Electrician's Drill/Driver Bit Kit. The kit includes the bit types and sizes **most used** by professional electricians. With everything in **one place**, there's no need to carry multiple bit kits or buy individual bit sets to create the right combination. With the new Electrician's Drill/Driver kit, everything is all together right there **when you need it**.

Made for the Trade - All of the bits are **professional grade** and meet or exceed ASTM standards. The masonry drills have a hardened shank that is **hammer drill rated** for better impact driving. The high speed drills are **titanium nitride coated**, so they last longer and **self-center** so they don't walk when drilling. Bits in competitor kits are made more for do-it-yourselfer's where Greenlee's bits and drills in the new Electricians Drill/Driver kit are made for the demands of the trade.

Ease and Convenience - All of the bits and drills in the kit have a 1/4" **Quick Change** hex for easy and fast changeovers. The nut drivers are **magnetic** and fit most TapCon® fasteners. The kit also includes a 3" magnetic bit holder and quick release chuck with a precise fit and no play so the bit won't wobble when drilling.

Features

- 1/4" Quick Change technology.
- Professional grade driver bits.
- Titanium Nitride coated self-centering high speed drill bits.
- High quality shock resistant case stays intact even after accidental drops.
- Hammer drill rated carbide grade tips and hardened shank masonry drill bits.
- Hardened forged magnetic nut drivers fit most TapCon® fasteners.
- Quick release chuck with precise fit.
- Includes security bits that fit most security fasteners frequently used in public facilities.

Specifications

CAT. NO.	LENGTH	WIDTH	HEIGHT	WEIGHT
DDKIT-1-68	12.32" (313 mm)	10.75" (273 mm)	1.95" (49 mm)	2.35 lbs (1.06 kg)
