

Coax AIO Coring Tool Kit

The Specialized Products SPC946 Tool Kit features Cable Prep AIO all-in-one coax coring tools that will work on coaxial cables. They are color-coded for easy cable identification: Yellow .500", Green .625", Red .750" and Gray .875". The tools perform six functions: strip back the jacket, core the dielectric, strip back and bevel the outer conductor, measure and bevel the center conductor. They align coring and stripping blades. Additionally, the Gator center conductor beveller and cleaner is included to bevel and fully clean center conductors.
