Solar Chargers

The Pop'N'Work 7886M Umbrella is designed to protect field workers from the sun and rain while on the job. This heavy-duty work umbrella features a two-part 86" aluminum center pole with tilt. Pointed tip helps ease installation of the work umbrella into the ground. Six steel ribs support the 78" diameter safety yellow vinyl cover. Work Umbrella includes storage bag.

The Pop'N'Work GS6411A Ground Tent features a new bowed rear strut design offers flexibility when dealing with rough terrain. Cold rolled steel hinges, 18-gauge galvanized tubing and a fiberglass rod tension frame ensure the work tent's stability. Flame retardant (CPAI-84), ANSI safety green sidewalls, UV treated and water-resistant coating, single-zipper door, a 9" x 21" vent window and a 10" blower port. Work tent is 6' x 4'.

SolarPulse 906x120 12 V solar charger, combined with patented pulse technology, restores and maintains the normal loss of battery power on all types of 12-volt lead acid batteries. Longer, narrow profile design for easy light bar installation on emergency and law enforcement vehicles and is supplied with unterminated wires for simpler install.

PulseTech SolarPulse 906x570 5 Watt solar charger combined with patented pulse technology, restores and maintains the normal loss of battery power on every kind of 12-Volt lead-acid battery. Higher efficiency, quality monocrystalline silicon cells get you the power you need in a sturdier, smaller sized solar panel for most installation options. The 5-watt 8.875" x 8.75" solar panel mounts flat and is virtually indestructible and impervious to weather, aging and damage from bumps and knocks.
