The Compass™ Personal Voltage & Current Detector

Compass™ is a lightweight non-contact electric and magnetic field detector for identification of the presence of voltage or current. Its advanced notification system is designed to warn their user to the presence of voltage and current. Once electric or magnetic fields are detected, users are notified of the energized source through visual and audible alerts. Compass™ is engineered to attach easily to the underside brim of any standard hard hat. Positioned within the user's peripherals, it is the first product of its kind to provide viewable alerts of any unseen electrical threats. This strategic placement allows it to provide a 360° detection area around the user. Once a threat is detected, Compass™ immediately provides the user with both audible and visual notifications.

- ✓ Improved Clips
- ✓ More sensitive if needed
- ✓ Easier to change and simple to change settings
- ✓ Smart adaptive feature when in use
- ✓ Water and dust resistant

360° DEGREES OF PROTECTION

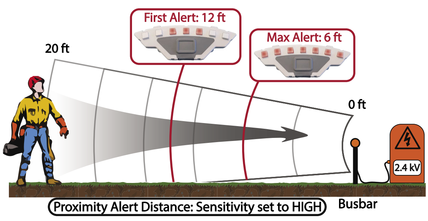
Its innovative hard hat mounted design allows COMPASS® to detect sources of voltage and current coming from any direction.

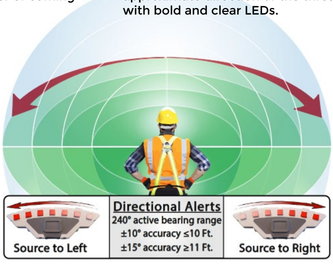
PROXIMITY AWARENESS

COMPASS® provides alerts for the presence of both Voltage and Current long before user is in danger of coming in contact with a threat.

DIRECTIONAL AWARENESS

In addition to proximity alerts, COMPASS® also shows the approximate direction of the threat with bold and clear LEDs.





Voltage Detection	(Sensitivity) LEDs						
First Alert/Max Alert	(Lowest) 1	2	3	(Medium) 4	5	6	(Highest) 7
2.4 kV	X / X	X / X	4 ft / X	6 ft / 2 ft	9 ft / 5 ft	12 ft / 6 ft	16 ft / 10 ft
4.2 kV	X / X	4 ft / X	7 ft / 3 ft	8 ft / 4 ft	12.5 ft / 7 ft	14 ft / 8 ft	19 ft / 12 ft
7.2 kV	X / X	6 ft / 2 ft	9 ft / 4 ft	11 ft / 6 ft	14 ft / 8.5 ft	18 ft / 10 ft	22 ft / 14.5 ft

X = DO NOT USE! Alert distance too small or non-existent.
